# OVER-THE-RANGE

## Radiant Blue Cavity

Always on the cutting edge of style, LG has taken the traditional white interior of the Over the Range Microwave and transformed it to a brilliant blue. Not only is it attractive, but it perfectly matches the interior of the LG Electric Range; complementing power with style, and adding flair to your kitchen.

## Glide & Cook Plus™

The Glide & Cook™ rectangular tray moves side to side, maximizing usable space and enabling even your large casserole dishes (up to 15" long) to fit comfortably.

**Glide & Cook Plus™** adds a traditional turntable that moves conventionally sized items back and forth while rotating simultaneously. This dual movement provides superior cooking performance and ensures that your food will be cooked thoroughly.

## WideView™ Window

The oven's wide window makes it easy to view your food while cooking, and the horizontal keypad keeps the controls at eye-level and convenient to access.

## Halogen Cooktop Lighting

Lighten up! Convenient halogen cooktop lighting not only illuminates your cooking space, but it does so with two bulbs that are even brighter than conventional incandescent bulbs.

### LMVM2075

<b>CAPACITY</b>	
Oven Capacity	2.0 cu.ft.
<b>FEATURES</b>	
Watts	1100
